INDEPENDENT AUDITORS' REPORT

To the Board of Directors Pauma Valley Community Services District Pauma Valley, California

We have audited the accompanying financial statements of Pauma Valley Community Services District, which comprise the statement of net position as of June 30, 2013, and the related statements of revenues, expenses and changes in net position, and cash flows for the year then ended.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with principles generally accepted in the United States of America: this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatements, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion the financial statements referred to above present fairly, in all material respects, the financial position of Pauma Valley Community Services District, as of June 30, 2013, and the results of its operations and its cash flows for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 8 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express opinion or provide any assurance.

Prior Year Summarized Comparative Information

Octago : Konrad, LLP

The prior year summarized comparative information has been derived from Pauma Valley Community Services District's 2012 financial statements and, in our report dated August 3, 2012 we expressed an unqualified opinion on those financial statements.

July 22, 2013

MANAGEMENT'S DISCUSSION AND ANALYSIS For the Years Ended June 30, 2013 and 2012

Management's Discussion and Analysis (MD&A) offers readers of the Pauma Valley Community Services District's financial statements a narrative overview of the District's financial activities for the fiscal year ended June 30, 2013. This MD&A presents financial highlights, an overview of the accompanying financial statements, an analysis of net position and results of operations, a current-to-prior year analysis, a discussion on restrictions, commitments and limitations, and a discussion of significant activity involving capital assets and long-term debt. Please read in conjunction with the financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- District's net position increased by \$24,521 or 0.8%.
- The District's operating loss was \$53,908. As compared to an operating loss of \$99,691 in 2011-2012.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis serves as an introduction to the District's financial statements. The District's basic financial statements reflect the combined results of the Operating and Capital Programs and include four components: 1) Statement of Net Position; 2) Statements of Revenues, Expenses, and Changes in Net Position; 3) Statements of Cash Flows; and 4) Notes to the Financial Statements.

The financial statements accompanying this MD&A present the net position, results of operations, and changes in cash flow during the fiscal year ending June 30, 2013. These financial statements have been prepared using the accrual basis of accounting, which is similar to the accounting basis used by for-profit entities. Each financial statement is identified and defined in this section, and analyzed in subsequent sections of this MD&A.

REQUIRED FINANCIAL STATEMENTS

Statement of Net Position

The Statement of Net Position presents information on the District's assets and deferred outflows of resources, and liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. However, other factors such as changes in economic conditions, population growth, zoning, and new or changed legislation or regulations also need to be considered when establishing financial position. Assets and deferred outflows of resources exceed liabilities and deferred inflow of resources, resulting in a net position of \$3,141,693 and \$3,117,172 as of June 30, 2013 and 2012, respectively.

MANAGEMENT'S DISCUSSION AND ANALYSIS For the Years Ended June 30, 2013 and 2012

REQUIRED FINANCIAL STATEMENTS

Statements of Revenues, Expenses, and Changes in Net Assets

The Statements of Revenues, Expenses, and Changes in Net Position present information showing how the District's net position changed during the fiscal year. All of the year's revenues and expenses are accounted for in the Statement of Revenues, Expenses, and Changes in Net Position. This statement measures the results of the District's operations for the year and can be used to determine if the District has successfully recovered all of its costs through user fees and other charges. Operating revenues and expenses are related to the District's core activities (providing wastewater and security patrol services). Non-operating revenues and expenses are not directly related to the core activities of the District (e.g. interest income, interest expense, property taxes, gain or loss on sale of assets). For the fiscal year ended June 30, 2013 net position increased \$24,521, which is added to the beginning net position of \$3,117,172, to arrive at an ending net position of \$3,141,693.

Statements of Cash Flows

The Statements of Cash Flows presents information regarding the District's use of cash during the year. It reports cash receipts, cash payments, and net changes in cash resulting from operations, financing and investing activities. The Statement of Cash Flows provides answers to such questions as. Where did cash come from? What was cash used for? What was the change in the cash balance during the reporting period?

District cash flow for the year has been categorized into one of the following activities: operating, noncapital financing, capital and related financing, or investing. The total of these categories represents an increase in cash and cash equivalents of \$115,064, which is added to beginning cash and cash equivalents of \$491,724, to arrive at ending cash and cash equivalents of \$606,788. Cash equivalents managed directly by the District consist of investments in the California Local Agency Investment Fund (LAIF).

MANAGEMENT'S DISCUSSION AND ANALYSIS For the Years Ended June 30, 2013 and 2012

FINANCIAL ANALYSIS AND CONDENSED FINANCIAL INFORMATION Analysis of Net Assets

Condensed Statement of Net Position

ASSETS	2013	2012	Dollar Change	Percent Change
Current and Other Assets	\$ 698,421	\$ 601,059	\$ 97,362	16.2%
Capital Assets	2,878,383	2,991,494	(113,111)	-3.8%
Total Assets	\$3,576,804	\$3,592,553	\$ (15,749)	-0.4%
LIABILITIES				
Long-term Debt Outstanding	\$ 340,232	\$ 388,536	\$ (48,304)	-12.4%
Other Liabilities	94,879	86,845	8,034	9.3%
Total Liabilities	435,111	475,381	\$ (40,270)	-8.5%
NET POSITION				
Net Investment in Capital Assets	2,538,151	2,602,958	\$ (64,807)	-2.5%
Unrestricted	603,542	514,214	89,328	17.4%
Total Net Position	3,141,693	3,117,172	24,521	0.8%

The condensed statement above presents a summary of the District's Statement of Net Position. The District's Net Position as of June 30, 2013 totaled \$3,141,693 compared with \$3,117,172 as of June 30, 2012, an increase of 0.8%. Net assets are accumulated from revenues, expenses, and contributed capital combined with the beginning balance of net assets as presented in the Statement of Revenues, Expenses, and Changes in Net Position. In accordance with generally accepted accounting principles, capital assets are recorded at historical cost. Total assets decreased by \$15,749 or 0.4%. As a result of operating and non-operating activities, the District's overall net position increased by \$24,521. The increase is allocated in part to a \$40,270 decrease in liabilities, mostly as a result of the decrease in long-term debt of \$48,304, the increase in other current liabilities of \$8,034, and the offset by the \$15,749 decrease in total assets.

MANAGEMENT'S DISCUSSION AND ANALYSIS For the Years Ended June 30, 2013 and 2012

FINANCIAL ANALYSIS AND CONDENSED FINANCIAL INFORMATION (Continued) Analysis of Revenues and Expenses

Condensed Statements of Revenues, Expenses, and Changes in Net Position

			Dollar	Percent
REVENUES	2013	2012	Change	Change
Operating Revenues	\$1,246,644	\$1,221,020	\$ 25,624	2.1%
Non-operating Revenues	96,302	101,187	(4,885)	-4.8%
Total Revenues	\$1,342,946	\$1,322,207	\$ 20,739	1.6%
EXPENSES				
Depreciation Expense	121,939	130,167	(8,228)	-6.3%
Operating Expenses	1,178,613	1,190,544	(11,931)	-1.0%
Non-operating Expense	17,873	19,997	(2,124)	-10.6%
Total Expenses	1,318,425	1,340,708	(22,283)	-1.7%
Change in Net Position	24,521	(18,501)	43,022	-233%
Beginning Net Position	3,117,172	3,135,673	(18,501)	-0.6%
Ending Net Position	\$3,141,693	\$3,117,172	24,521	0.8%

While the Statement of Net Position shows the change in financial position, the Statements of Revenues, Expenses and Changes in Net Position, provides answers to the nature and source of these changes. Overall, the net position increased by \$24,521, as compared to the previous year. The main factors in the change in net assets are as follows: (1) Security and sewer rate increases during the year resulting in a combined increase of \$25,624 in operating revenues (2), operating expenses decreased by \$11,931 as a result professional/contract services expenses decreasing by \$13,433, repairs and maintenance expenses increasing by \$20,207, salaries and fringe benefits decreasing by \$33,710 and other general operating expenses increasing by \$15,005, and (4) Non-operating revenues decreased by \$4,885 due from a decrease in property tax revenue of \$5,380, increase in interest income of \$409 and a increase in administrative charges of \$86, and non-operating expenses decreased by \$2,124 from a decrease in interest expense paid on long-term debt.

MANAGEMENT'S DISCUSSION AND ANALYSIS For the Years Ended June 30, 2013 and 2012

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

Condensed Capital Assets Information

CAPITAL ASSETS	2013 2012		Dollar 2013 2012 Change	
Land and Easements	\$ 3,187	\$ 3,187	\$ -	0.0%
	172,749	172,749	Φ -	0.0%
Buildings and Improvements	*	*	1 002	
Machinery and Equipment	408,874	407,781	1,093	0.3%
Information Systems	19,853	12,118	7,735	
Treatment Plant	2,864,070	2,864,070	-	0.0%
Infrastructure	607,342	607,342		0.0%
Sub-total	4,076,075	4,067,247	8,828	0.2%
Less: Accumulated Depreciation	1,197,692	1,075,753	(121,939)	-11.3%
Net Capital Assets	\$2,878,383	\$2,991,494	\$ (113,111)	-3.8%

Net capital assets decreased by \$113,111 from the prior year, contributing towards the ending balance of \$2,878,383. This decrease consisted of machinery and equipment and information systems additions in the amount of \$8,828, less current year's depreciation of \$121,939.

The additions to capital assets during the year were as follows:

- New laptop computer (\$710)
- New TV in board room (\$383)
- Continuing development cost in GIS database (\$7,735)

Long Term Debt

At June 30, 2013 the District had \$348,738 in outstanding debt, which is made up of an Installment Note Payable to City National Bank. During the year the District renegotiated the interest rate on the note payable to City National Bank from 4.6% to 2.85%, which will result in a net savings of \$20,500 over the remaining six years of the note. The District issued no new debt and reduced the outstanding principal balance by \$48,304.

MANAGEMENT'S DISCUSSION AND ANALYSIS For the Years Ended June 30, 2013 and 2012

CONDITIONS AFFEDTING CURRENT FINANICAL POSITION

Management is unaware of any other conditions, which could have a significant impact on the District's current financial position, net assets or operating results in terms of past, present and future.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our Board of Directors, citizens, customers, ratepayers, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the funds it receives and the stewardship of the facilities it owns and operates. If you have questions about this report or need additional information, please contact the District's Administrator, Pauma Valley Community Services District, 33129 Cole Grade Road, Pauma Valley, California 92061.

NOTES TO FINANCIAL STATEMENTS Years Ended June 30, 2013 and 2012

Note 1. Description of Organization and Significant Accounting Policies

Nature of Organization

The Pauma Valley Community Services District (the District) was organized in 1961 under the Community Services District Law (Division 2 of Title 6) to provide sanitary and security services to its constituency. The District is governed by a Board of Directors consisting of five directors elected by the District's constituency.

Reporting Entity

The District has defined its reporting entity in accordance with the Governmental Accounting Standards Board's Codification of Governmental Accounting and Financial Reporting Standards. These standards provide guidance for determining which governmental activities; organizations and functions should be included in the reporting entity and how information about them should be presented. The basic criterion for inclusion of a governmental unit in a governmental reporting entity are: (1) financial interdependency,(2) selection of governing authority, (3) designation of management, (4) ability to significantly influence operations, and (5) accountability for fiscal matters.

The scope of this report extends exclusively to the financial information of Pauma Valley Community Services District. The Governing Board of the District has no oversight responsibility over any other governmental unit or agency. As such, the Board's governing authority, designation of management, ability to significantly influence operation, and accountability for fiscal matters extend only to the affairs of the District

Basis of Presentation

The financial statements include certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2012, from which the summarized information was derived.

Basis of Accounting and Measurement Focus

The District reports its activities as an enterprise fund, which is used to account for operations that are financed and operated in a manner similar to private business enterprise, where the intent of the District is that the costs (including depreciation) of providing sanitation and security services to its customers on a continuing basis be financed or recovered primarily through user charges. Revenues and expenses are recognized on the accounting period in which they are earned and expenses are recognized in the period incurred.

NOTES TO FINANCIAL STATEMENTS Years Ended June 30, 2013 and 2012

Note 1. Description of Organization and Significant Accounting Policies (continued)

Basis of Accounting and Measurement Focus (continued)

The District distinguishes operating revenue and expense from non-operating items. Operating revenues and expenses generally result from providing services in connection with the District's principal ongoing operations. The principal operating revenues of the District are charges to customers for sewage and security services. Operating expenses for the District include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District recognizes revenues from sewage and security services as they are earned. Taxes and assessments are recognized as revenues based upon amounts reported to the District by the County of San Diego.

Net position is displayed as three components; (1) Net investment in capital assets, which reflects the cost of capital assets less accumulated depreciation and less the outstanding principal of related debt not associated with unspent debt proceeds; (2) Restricted, which reflects the carrying value of assets less related liabilities that are restricted by outside covenants or by law (District has no restrictions); and (3) Unrestricted. Upon board resolution, unrestricted net position may be designated for debt payment, working capital, contingency reserve, and capital repair and replacement costs.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the District considers all highly liquid investments with a maturity of three months or less, when purchased, to be cash equivalents. Cash deposits are reported at carrying amount, which reasonably estimates fair value.

NOTES TO FINANCIAL STATEMENTS Years Ended June 30, 2013 and 2012

Note 1. Description of Organization and Significant Accounting Policies (continued)

Investments

Investments are reported at fair value except for short-term investments, which are reported at cost, which approximates fair value. Cash deposits are reported at carrying amount, which reasonably estimates fair value. Investments in governmental investment pools are reported at fair value based on the fair value per share of the pool's underlying portfolio.

Allowance for Doubtful Accounts

The District's accounts receivable consist of balances due from its customers, substantially all whom are residents in Pauma Valley Country Club Estates. The District has the right of lien and foreclosure on customer's properties, and accordingly the risk of non-collection is low. However, when these remedies appear inadequate, the District provides for estimated losses based upon prior experience and management's assessment of the collectability of existing specific accounts. Accounts receivable is presented net of allowance for doubtful accounts of \$5,000 for years 2013 and 2012.

Prepaid Expenses

Certain payments to vendors reflect costs or deposits applicable to future accounting periods and are recorded as prepaid items in the financial statements.

Capital Assets

The cost of purchased and constructed additions to utility plant and major replacements of property, including those financed through special assessments, are capitalized. Cost includes materials, direct labor, transportation, and such indirect items as engineering, supervision, and interest incurred during the construction period. Repairs, maintenance, and minor replacements of property are charged to expense. Contributed assets are capitalized at cost, which approximates fair market value. Upon retirement or other disposition of capital assets, the cost and related accumulated depreciation are removed from the respective balances and any gains or losses are recognized. Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets as follows:

Buildings and fences	5 to 40 years
Machinery and equipment	5 to 30 years
Sewer and lateral lines	10 to 50 years
Oak Tree lift station	5 to 15 years
Treatment plant	40 years
Leasehold improvements	10 years
Drains	100 years
Channels	10 to 50 years

NOTES TO FINANCIAL STATEMENTS Years Ended June 30, 2013 and 2012

Note 1. Description of Organization and Significant Accounting Policies (continued)

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Property Taxes

Property tax in California is levied in accordance with Article XIIIA of the State Constitution at one percent of county-wide assessed valuations. This one percent is allocated pursuant to state law to the appropriate units of local government. Tax levies are limited to 1% of full market value which results in a tax rate of \$1.00 per \$100 assessed valuation, under the provisions of Proposition 13.

The County of San Diego (the "County") bills and collects property taxes on behalf of the District. The County's tax fiscal year is July 1, to June 30. Property taxes attach as a lien on property on January 1. Taxes are levied on July 1 and are payable in two equal installments on November 1 and February 1, and become delinquent after December 10, and April 10.

Note 2. Cash and Investments

Cash and cash equivalents as of June 30, 2013 and 2012 are classified in the accompanying financial statements as follows:

	<u>2013</u>	<u>2012</u>
Cash on hand	\$ 100	\$ -
Deposits with financial institutions	151,510	127,812
Deposits with L.A.I.F.	455,178	363,912
Total anch and anch agriculants	¢ 606 700	¢ 401.724
Total cash and cash equivalents	\$ 000,788	\$ 491,724

NOTES TO FINANCIAL STATEMENTS Years Ended June 30, 2013 and 2012

Note 2. Cash and Investments (continued)

Investments Authorized by the California Government Code and the District's Investment Policy

The table below identifies the investment types that are authorized by the California Government Code and the District's investment policy. The table also identifies certain provisions of the District's investment policy that address interest rate risk and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustee that are governed by the provisions of debt agreements rather than the general provisions of the California Government Code or the District's investment policy.

		Maximum	Maximum
Authorized	Maximum	Percentage	Investment
Investment Type	Maturity	of Portfolio	in One Issuer
Negotiable Certificates of Deposit	5 years	30%	None
Local Agency Investment Fund (LAIF)	N/A	None	\$ 500,000

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by maintaining excess cash reserves in the California Local Agency Investment Fund (L.A.I.F.) that mature on a daily basis as to provide the cash flow and liquidity needed for debt service requirements.

Investments with Fair values Highly Sensitive to Interest Rate Fluctuation

The District's did not hold any investments that are highly sensitive to interest rate fluctuations (to a greater degree than already indicated in the information provided above).

NOTES TO FINANCIAL STATEMENTS Years Ended June 30, 2013 and 2012

Note 2. Cash and Investments (continued)

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below, is the minimum rating required by (where applicable) the California Government Code, the District's investment policy, or debt agreements and the actual rating as of the year end for each investment type.

		Mimimum	Exempt	Rating as of Year End		ar End
		Legal	From			Not
Investment Type	Amount	Rating	Disclosure	AAA	Aa	Rated
California Local Agency Fund	\$455,178	N/A	-	\$ -	\$ -	\$455,178

Concentration of Credit Risk

The investment policy of the District limits the amount that can be invested in an external investment pool (LAIF). A maximum limit has been set at \$500,000 that can be invested in LAIF at any point in time. All other authorized investments contain imitations stipulated by the California Government Code. The District held no investments in any one issuer (other than the external investment pool) that represent 5% or more of the total District's investments.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

NOTES TO FINANCIAL STATEMENTS Years Ended June 30, 2013 and 2012

Note 2. Cash and Investments (continued)

Custodial Credit Risk (continued)

The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure District deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. The District's investment policy requires

As of June 30, 2013, all of the District's deposits with financial institutions were being held in collateralized accounts.

Investment in State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code 16429 under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized costs basis.

As of June 30, 2013 and 2012, the District's deposit with LAIF was \$455,178 and \$363,912, respectively.

Note 5. Defined Benefit Pension Plan - CalPERS

Plan Description

The District contributes to the California Public Employees Retirement Systems (CalPERS), an agent multiple-employer public employee defined benefit pension plan. CalPERS provide retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by state statute and city ordinance. Copies of CalPERS' annual financial report may be obtained from their Executive Office, 400 P Street, Sacramento, CA 95814.

All full-time employees are eligible to participate in CalPERS with benefits vesting after five years of service. District employees who retire at age 55 with five years of credited service are entitled to an annual retirement benefit, payable monthly for life, in increasing percentage increments up to the maximum amount of their specific plan during their highest consecutive twelve month period, for each year of credited service.

Funding Policy

For the classic plan, participants are required to contribute 8.0% of their annual covered salary. For the PEPR plan, participants are required to contribute 6.25% of their annual covered salary. The District is required to contribute the remaining amount necessary to fund the benefits of its members, using the actuarial basis recommended by the CalPERS actuaries and actuarial consultants and adopted by the Board Administration. The required employer contribution rate for fiscal year ended June 30, 2013 was 18.026% for plan participants as determined by the annual CalPERS valuation, and the current FY2013/14 rate is 18.025% of annual covered payroll. The contribution requirements of plan members and the District are established and may be amended by CalPERS.

Annual Pension Cost

Unger GASB 27, an employer reports an annual pension cost (APC) equal to the annual required contribution (ARC) plus an adjustment for the cumulative difference between the APC and the employer's actual plan contributions for the year. The cumulative difference is called the net pension obligation (NPO). The ARC for the period July 1, 2012 to June 30, 2013 has been determined by an actuarial valuation of the plan as of June 30, 2011. The contribution rate for the indicated period is 18.025% for the CalPERS retirement program.

NOTES TO FINANCIAL STATEMENTS Years Ended June 30, 2013 and 2012

Note 5. Defined Benefit Pension Plan - CalPERS (continued)

Annual Pension Cost (continued)

In order to calculate the dollar value of the ARC for inclusion in the financial statements prepared as of June 30, 2013, the contribution rate, as modified by any amendments for the year, is multiplied by the payroll of the covered employees that were paid from the period July 1, 2012 to June 30, 2013.

The following is a summary of the actuarial assumptions and methods:

Valuation Date June 30, 2011

Actuarial Cost Method Entry Age Normal Cost Method

Amortization Method Level Percent of Payroll

Average Remaining Period 19 Years as of the Valuation Date Asset Valuation Method 15 Year Smoothed Market

Actuarial Assumptions

Investment Rate of Return 7.50% (net of administrative expenses)

Projected Salary Increases 3.30% to 14.20% depending on Age, Service, and type of

employment

Inflation 2.75% Payroll Growth 3.00%

Individual Salary Growth A merit scale varying by duration of employment coupled

with an assumed annual inflation growth of 2.75% and an

annual production growth of 0.25%

Initial unfunded liabilities are amortized over a closed period that depends on the plan's date of entry into CalPERS. Subsequent plan amendments are amortized as a level percentage of pay over a closed twenty year period. Gains and losses that occur in the operation of the plan are amortized over a thirty year rolling period, which results in an amortization of about 6% of unamortized gains and losses each year. If the plan's accrued liability exceeds the actuarial value of the plan assets, then the amortization payment of the total unfunded liability may not be lower than the payment calculated over a thirty year amortization period.

For employees in the Classic category, the total employee required contribution paid to CalPERS for 2013 and 2012 was \$39,146 and \$40,824, respectively (8.0% of covered payroll). The employer required contribution (18.026%) paid to CalPERS for 2013 was \$91,310 less the amount charged to Rancho Pauma Mutual Water Company of \$29,582 for a net employer contribution expense of \$61,728. The employer required contribution (18.026%) paid to CalPERS for 2012 was \$90,025 less the amount charged to Rancho Pauma Mutual Water Company of \$28,440 for a net employer contribution expense of \$61,585.

NOTES TO FINANCIAL STATEMENTS Years Ended June 30, 2013 and 2012

Annual Pension Cost (continued)

For employees in the PEPRA category, this new classification was initiated in 2013 and applies to all employees hired after January 1, 2013. The total employee required contribution paid to CalPERS for 2013 and 2012 was \$230 and \$0, respectively (6.25%) of covered payroll. The employer required contribution (6.25%) paid to CalPERS for 2013 was \$248 less the amount charged to Rancho Pauma Mutual Water Company of \$80 for a net employer contribution expense of \$167.

The total employer required contribution for both groups paid to CalPERS for 2013 and 2012 was \$61,896 and \$61,585, respectively. The contributions were made in accordance with actuarially determined requirements computed through an actuarial valuation performed prior to the beginning of each fiscal year by the CalPERS Actuarial Division.

Trend Information

Trend information gives an indication of the progress made in accumulating sufficient assets to pay benefits when due. The District's specific four-year trend information follows:

Four-year trend information for CalPERS

			Percentage		Net
Fiscal Year	Annual Pension		of APC	Pension	
	C	ost (APC)	Contributed	0	bligation
06/30/10	\$	48,338	100%	\$	-
06/30/11	\$	52,489	100%	\$	-
06/30/12	\$	61,585	100%	\$	-
06/30/13	\$	61,896	100%	\$	-

Required Supplementary Information

The schedule of funding history and funding progress for CalPERS, presented as required supplementary information to the notes to the basic financial statements, presents mulit-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability. The following schedule shows a five-year history of the funded ratio and funded status of the District's agent multiple-employer public defined benefit pension plan. The information reflects the most recent actuarial valuation and the four preceeding valuations available from CalPERS.

Note 6. Commitments and Contingencies

The District is involved in routine litigation incidental to its business and may be subject to claims and litigation from outside parties. After consultation with legal counsel, Management believes the ultimate outcome of such matters, if any, will not materially affect its financial condition.

Note 7. Subsequent Event

In accordance with the provisions surrounding Subsequent Events adopted the District's management has evaluated the possibility of subsequent events existing in the District's financial statements. Management has determined that there are no material events that would require disclosures in the District's financial statements.
